Has a previous appeal or application been made with respect to this property? Yes No
If "yes", state nature of previous appeal or application.

REQUEST FOR VARIANCE

Attach separate sheet explaining:

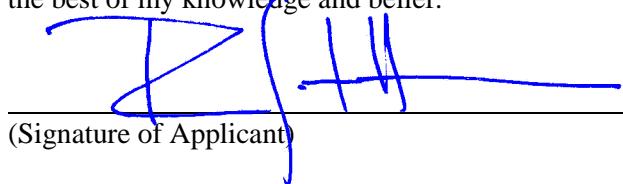

1. Variance requested;
2. What special conditions exist which will cause practical difficulty or unnecessary hardship if the variance requested is not granted;
3. Why variance requested is not contrary to the public interest and will not endanger public safety and welfare;
4. Why variance requested will be in accord with the spirit of the zoning ordinance;
5. How the variance, if granted, will cause substantial justice to be done.

(over)

Each application must be accompanied by a copy of plat or plat of survey with the following information:

1. The location, boundaries, dimension, elevations, and size of property;
2. Accessory structures and utility easements;
3. Streets and other public ways;
4. Driveways and existing highway access restrictions;
5. All abutting properties;
6. Proposed detailed building plans and elevations;
7. Requested change or addition;
8. Must accompany nine (9) sets of blue prints and nine (9) copies of the application.

I swear that all of the above statement and the statements contained in any papers or plans submitted herewith are true to the best of my knowledge and belief.

Dear Monona Zoning Board of Appeals,

The owners (Nichole & Patrick DePula) are requesting a zoning variance on the required 7ft side yard setback (Sec. 13-1-80)(d)(4)(b) on their current residence at 1304 Baskerville Ave.

They propose to construct a single wide garage on the west side of their existing home. Due to the narrow lot conditions, they are requesting a reduction of the side yard setback from 7ft to 5ft. With a 2ft proposed roof overhang, the edge of the soffit to the property line would be 3ft.

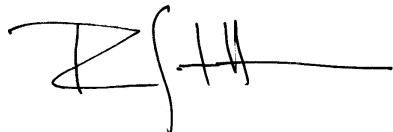

At 14'-6", the dimension from the existing west wall of the residence to the 7ft side yard setback, would be too narrow to accommodate a single wide car garage. At this wide, even without single loaded storage along one side of the garage, opening a typical car door would be restricted. Moving the garage wall an additional 2ft to the west would allow for a more functional garage.

It is speculated, (as illustrated on the vicinity map on sheet A000) that due to a large majority of garages along Baskerville Ave that encroach beyond this 7ft side yard setback, (most likely due to the typically narrow, substandard lot dimensions) that no harm would be inflicted on the public interest.

Also, in an effort to address some of the virtues of a 'New Urbanism' development, by recessing the garage door back behind a carport canopy, and along with the addition of a proposed front porch, the owners hope to provide a more pedestrian friendly curb appeal.

Thank you for your consideration,

Ryan Schultz
